

WHO WE ARE

Murdock Elementary School sits in the heart of East Cobb in Marietta, Georgia and has an excellent reputation and stellar faculty.

In early 2004, a group of parents gathered to discuss County and State budget cuts in education and their impact on Murdock. The group suggested forming a foundation to offer Murdock parents and the local community ways to contribute toward enhancing curriculum and addressing capital needs of the school.

The suggestion was met with overwhelming support by parents, teachers, and school staff, and, soon after, the Murdock Elementary School Foundation, Inc., (MESF) was formed.

The MESF is a not-for-profit 501(c)(3) corporation. A twelve person board of directors and large group of parent, teacher, and community volunteers manage the business of the Foundation.

MISSION STATEMENT

The mission of the Murdock Elementary School Foundation, Inc. is to provide the students, teachers, and entire community of Murdock Elementary School with resources that will enhance the learning environment and educational opportunities of the students.

The Foundation will work to provide the school with the means to increase exceptional, meaningful, and state-of-the-art educational experiences for all students. This support will be offered by parents, faculty, and community members, and is designed to supplement the resources already provided by Cobb County and the Murdock Elementary School PTA.

PRIVATE SPONSORSHIP

2006-2007

MAKE A DIFFERENCE:

Most of us know how lucky we are to have a school like Murdock Elementary for our children. It's one of the best schools in one of the best districts in metro Atlanta, due in large part to Murdock's top-notch faculty, leadership and parent volunteers. Supporting Murdock comes easily to most of us because it's just the right thing to do. Yet, it's also very necessary.

Shrinking tax revenues, budget cuts and a shift in state funds to schools in under-served areas are eating into budgets at schools like Murdock. The MESF will raise funds to help make up for this by supporting:

- Technology upgrades - new computers, copier, sound field systems, laptops, etc.
- Expanded curriculum and instructional materials
- New teaching positions, such as foreign language teachers
- Teacher training and support, workshops and teacher grants, educational materials....
